

TECHNOLOGY STUCK IN THE SLOW LANE?

JABTECH CAN PUT YOU ON CRUISE CONTROL.

Proud to have retained **100%** of our customers over the last decade.
FIND OUT HOW WE CAN SOLVE YOUR IT PROBLEMS.

WE ARE YOUR IT DEPARTMENT

For nearly a decade, Jabtech has been the IT department for businesses and brands in Metro Detroit. Our customers enjoy the benefits of a full IT department that provides round-the-clock monitoring and management of their network. Our business model allows you to keep the pulse on your customers – while we keep ours on you.

MANAGED IT FEATURES

- Anti-spam prevention (www.appraver.com)
- 24x7x365 remote monitoring and alerting
- 3rd party application update management (java, adobe, etc)
- Cloud management
- Virtual CIO
- Hardware and software asset management
- Network health reports

Be Proactive

Stay ahead of Windows patching, software updates, PC tuning and round the clock health monitoring.

Disaster Recovery

We include offsite backups and disaster recovery in our service. Set and forget – just like it should be!

A/V & Malware

You guessed it. We include Anti-Virus and Malware protection at no additional cost. Don't be a victim of Ransomware.

Flat fee pricing

A flat monthly rate for unlimited support and a laundry list of features. How easy is that?
